**MAHESH CHANDRA GARG**  
CHAIRMAN

## Dear Shareholders,

Your company came out stronger in the year gone by and we look forward to meeting challenges and exceeding targets in the months ahead. Every crisis comes with an opportunity. With a unique mix of talent, innovation, experience and a growing clientele, we have literally no limits to hold us back.

**The TRANSFORMATION is constant. I believe we have to keep reinventing ourselves to stay in this business.**

The world's economy was hit by opposing forces on all sides. While some parts of the globe showed strong growth rates (India and the US) there were others that saw major slippages like China and the European Union.

A 50 percent fall in crude oil prices brought good news to India, which imports nearly 70 percent of her fuel needs. But at the same time exports slowed as major markets for Indian products contracted. Overall, it was a mixed bag for companies across the world and we are no different.

A drop in prices of raw materials such as steel, which is going through a global downturn, meant that our margins improved, but only for a short period. We had to pass on these benefits to the final customers in a bid to remain competitive in this cut-throat world.

Fuel and power costs came down, due to a fall in the prices of diesel and petrol, which is an ongoing relief. We have plans to improve our margins further, and I will touch upon them in a while.

Let me explain what the coming months hold for you:

In short, we are transforming Good Luck into a bigger, leaner and a meaner company. There are three legs to this major change:

1. Capacity Expansion: Brownfield and Greenfield,
2. Shifting the product mix to higher value added products,
3. Entering new business areas such as Defence, Railways and Solar Power.

## EXPANSION:

Your company is raising its capacity across major value added products only. Good Luck has lined up 3 major additions over the next one to three years.

They are both on the greenfield side as also adding to existing facilities. Your company is pouring 30 crore rupees into a brand new unit for STRUCTURES. The factory should start production by March 2016. Fresh capacity will add to the top line and since products are value-added your company's margins are likely to go up further.

Another green field unit is about to come up in India's most vibrant state industrially, yes, I am talking about Gujarat. Your company is planning to invest 260 crore rupees in setting up a spanking new plant for Auto Tubes, Heavy Support Structures solutions and Forging, i.e., all value added engineering products catering to sunrise sectors such as Automobiles, Railways, Solar and Infrastructure.

Your company has already purchased land and the permissions to change its status for industrial use, from agricultural now, are being processed.

The land in Bhuj (Gujarat) is within the proximity of two sea ports. This helps your company in several ways. Good Luck will be able to tap demand from not only overseas markets, it will also use transportation via the sea route to supply to its clients in the western and southern parts of India.

sea route offers logistical advantages compared with transporting goods by road. It will be cheaper, quicker and less bothersome for your company.

The project would have two stages, First stage would be for Auto Tubes and Heavy Support Structure solutions and second stage in Forging.

Almost the entire expansion will be towards value added products, thereby improving your company's EBIDTA margins.

## VALUE ADDED PRODUCTS:

Your company is now concentrating its entire might into improving its product mix to help shareholders earn higher margins. Our focus is now on designing and manufacturing these products in all verticals: Structurals, Auto tubes and forgings.

The management has taken a decision to keep sales of low margin products constant from now on. At the moment 50 percent of turnover comes from products that result in low margins. Over the next three years the management will take steps to ensure that no more than 25 percent of sales come from low-margin products.

As a consequence, nearly 75 percent of your company's sales will be via higher margin products, adding to both higher profitability and more profit. All new expansions are aimed at this objective.

## NEWER BUSINESSES:

Prime Minister Narendra Modi took charge in May 2014. His 'Make in India' objective has injected a fresh lease of life in the manufacturing sector, which was neglected over the last so many years. Mr. Modi's initiatives to de-bottleneck strategic infrastructure such as Railways and Power sectors means your company will have newer horizons to tap into.

The government is also trying to manufacture defence equipment in India. This is another growth area for your company.

**Good Luck will get its fair share of this global sized business opportunity as well.**

While, the economic picture looks relatively rosy from what it was two years ago, there are quite a few events that may derail this enthusiasm. India is experiencing a weak monsoon. Scanty rains play havoc with rural incomes and thereby cut into demand for everything from soaps to industrial products.

Large parts of the economic world are experiencing slower growth. This may result in overseas demand growing at a slower pace. However, your company is adequately placed to meet these challenges head on. We are cautiously optimistic at this stage and believe that hard work, dedication and strategy can take our business to next stage.

I thank our valued customers, stakeholders, suppliers, business associates, shareholders, and above all, my colleagues in Good Luck Steel for their continuous support

YOURS SINCERELY,

## UNIQUE BUSINESS MODEL & CONTINUOUS RESHUFFLING OF MARKETS AND PRODUCTS KEEP US AHEAD OF COMPETITORS

- Mr Ram Agarwal, CEO

### WHAT IS THE OVERALL GROWTH RATE OF PIPE INDUSTRY ? DO YOU FEEL THERE IS AN AMPLE OPPORTUNITY FOR ALL THE SEGMENTS TO GROW OR ALL THE PLAYERS IN THE SEGMENT TO GROW.

Pipe is the basic skeleton of industrial development. It is a very basic necessity for transporting gases & liquids across the world. Now, new opportunities such as Iran are opening up and they will provide work for everybody in the industry. Finding newer markets are the key to sustain the industry.

### HOW HAVE YOU BEEN ABLE TO GROW AT SUCH A RAPID PACE, WHEN THE OVERALL INDUSTRY HASN'T EXPANDED AS MUCH?

GLST's business model of having a diverse menu of products and not expanding capacity of any product to a level where it puts selling pressure on the company has stood us in good state. We have been able to come out of the down turn without much trouble. Moreover, reshuffling our main markets as per domestic & global conditions helped us to be ahead of our competitors.

### HOW ARE YOU PLANNING GROWTH SO THAT LONGER-TERM RESULTS DO NOT GET AFFECTED?

We are allocating scarce resources in a manner that our existing growth does not get affected. Moreover, there is a time lag between a project's drawing board stage and its execution on the ground. So, every capex is being planned in phased manner so that neither do we block our capital nor hinder our growth.

### WHAT ARE THE NEW PRODUCTS IN THE LAUNCH PIPELINE? WHAT KIND OF CAPEX IS BEING LINED UP? WHAT ARE THE REVENUE PROJECTIONS FOR THESE NEW PRODUCTS ?

We have a solution aimed at the renewable energy sector via our Solar structures. Auto tubes and CDW tubes are aimed at railway engines and their coaches as also for two

and four wheelers. There are many such things in the R&D stage.

We are spending 30 crore rupees to expand capacity at the structurals vertical. This alone should give us an additional revenue of 150 crore rupees. Another 250 crore rupees worth of expansion is aimed at Auto tubes, heavy Structures & forgings in FY2016 & FY2017 that should generate a revenue of 900 crore rupee in the coming years.

### HOW YOUR PRODUCT MIX HAS CHANGED IN LAST 2 YEARS?

Over the last two years we have been able to reduce our regular products to 52 percent and raise our Engineering value products sales to 48 percent. Earlier, 60 percent of sales were coming from structure tube vertical & cold rolling sheet vertical while auto tubes, forging & structures contributed just 40 percent share.

### YOU HAVE BEEN TALKING ABOUT MARGIN IMPROVEMENT IN YOUR BUSINESS? HOW WILL THIS HAPPEN?

As I have said earlier, auto tubes forging & structures are having good EBIDT whereas GI Tubing & C.R sheets have low EBIDT. By making high EBIDT product share to the tune of 75 percent & reducing low EBIDT product to 25% will improve margins.

### HOW MUCH IS THE PRODUCTION CAPACITY AND WHAT IS THE POSSIBILITY TO INCREASE OUR CAPACITIES IN OUR EXISTING SITES?

Present installed capacities are in tune of 200000 ton per year with a utilization of 70 % to 85% across all the verticals. There is not much scope in increasing utilization. New capex is being done in order to increase production capacity. Our R&D and marketing teams are on the job to make and sell more value added products in order to increase revenue & profitability.

## Q&A WITH CEO

### WHAT IS STRATEGY TO REDUCE COST OF FUNDS?

We are trying to do better debt management & cut stock levels. However, new options of cheaper funds through various financial instruments is also on our radar.

### WHAT ARE THE NEW TRENDS THAT ARE DEVELOPING IN YOUR INDUSTRY?

There are two sets of opposing trends. A drop in commodity prices is helping our products become more competitive and at the same time strong engineering skills are resulting in value added products, for which niche markets are growing.

### HOW YOU CONTROL INVENTORY LEVELS AND RECEIVABLES?

There are certain inventory levels fixed for each product in each vertical and they are subject to review due to changing marketing conditions. Receivables control is based on evolution of each & every customer in every vertical & strict monitoring of any violation is monitored at management level.

### WHAT'S THE CALL ON RAW MATERIAL PRICES?

material price are falling across the globe and excess Chinese capacity is likely to dent prices further. However, any government interference is likely to rein in the downtrend. GLST being a converter of steel is in a position to retain its conversion margin.

### WHAT ARE YOUR LONG TERM GOALS?

GLST wants to establish itself as an epitome of engineering excellence in its product & services. We should be known for our consistent quality. We are also aiming at a 100% increase in top line & almost 200-300% rise in our bottom line.

### WHAT ARE KEY GROWTH DRIVERS OF THE COMPANY?

Unique business model and continuous reshuffling of markets and products keep us ahead of the competitors. Consistent quality by dedicated and motivated team will take the company to next stage of growth cycle.

# TRANSFORMATION & STRATEGIC OVERVIEW

Good Luck stands at the cross-roads of a great transformational journey. Just as India steps into a higher orbit and takes her rightful place among the manufacturing greats of the world, Good Luck, too, is embracing change to capture boundless growth in the coming years.

Transformation entails improving the entire thought process from conception of a product to its delivery at the customer's supply chain. Hence, we are overhauling all processes: financial, supply-chain, manufacturing and transport in a bid to delight our customers and become their supplier of choice.

Newer plants, higher capacities and better products are being rolled out to ultimately improve the final product and benefit from India's expanding growth story.

Improvements are both incremental and leap frogging. This dynamic change in the next three years will transform Good Luck into the top league of auto-ancillary giants. We hope you will be a part of this wealth-creating journey with us.

**TRANSFORMATION IS A PROCESS, AND AS LIFE HAPPENS THERE ARE TONS OF UPS AND DOWNS. IT'S A JOURNEY OF DISCOVERY - THERE ARE MOMENTS ON MOUNTAINTOPS AND MOMENTS IN DEEP VALLEYS OF DESPAIR.**

# MANAGEMENT DISCUSSION AND ANALYSIS

**THE LIMITS OF THE POSSIBLE CAN  
ONLY BE DEFINED BY GOING BEYOND  
THEM INTO THE IMPOSSIBLE.**

**- Arthur C. Clarke**

**GLOBAL :** Emerging markets witnessed a fall in growth rates, led by a slowdown in China, a steep contraction in Russia and a recession in Brazil. A large number of central banks have cut rates in the fourth quarter of the Financial Year 2014-15 as they fight the threat of deflation with the collapse in crude and other commodity prices.

The latest World Economic Outlook by IMF projects the global growth to remain moderate in 2016. A number of emerging economies, which had already experienced a debilitating slowdown in the past two years, encountered domestic and international headwinds during the period. Growth in emerging markets and developing economies is expected to be lower, primarily reflecting weaker prospects for some large emerging market economies and oil-exporting countries.

**INDIA :** After a couple of dull years, the Indian economy is reviving slowly. While the regulatory and procedural reforms

undertaken by the new Government since taking office in June last year did help improve the business climate, weak demand continued to constrain private sector activity for the second year in succession. With global growth across developed and emerging markets remaining below par in 2014, external demand remained tepid and uninspiring through the year. At the same time, a poor monsoon season coupled with benign food prices severely constrained rural income and domestic demand. The one bright spot was the improvement in investment plans and expenditures signaled by the sharp pick up in capital goods production and new project announcements in the second half of 2014-15, which signifies well for future growth.

From a macroeconomic perspective, it is increasingly evident that the worst is not over. Growth in FY 2016 can remain more on the lower side of the range given above, for the following reasons: (i) steps undertaken to restart the investment cycle

(including project clearances and incentives given to industry) are perceived to be playing out only gradually; (ii) the benign growth outlook in some Asian economies, particularly China; (iii) still elevated levels of inflation that limit the scope of the RBI to reduce policy rates; and (iv) expectation of below-normal monsoons.

**INDUSTRY :** The industry is a key link between critical manufacturing segments – metal suppliers (both ferrous and nonferrous) and end user industries. Forgings are intermediate products used widely by original equipment manufacturers in the production of durable goods.

Among the industries that depend on forgings are automotive and truck (HCV), agricultural machinery and equipment, valves, fittings and petrochemical applications; hand tools and hardware; off-highway and railroad equipment; general industrial equipment; ordnance and marine; and aerospace. Increasing globalization of markets forging capabilities that can emerge from players in other developed and developing countries. Hence, R&D costs have to be increased substantially to make technically advanced products that competition.

The capacities created on the forging side have to be utilised optimally to be cost competitive in an increasing price sensitive market. Customers have expectations for increasingly high levels of quality at a lower price in today's challenging situation. Hence forgers have to work towards the end product and radically change the existing process to produce parts that satisfy the customer, while providing a reasonable level of profitability for all parties in the supply chain. This may put pressure on the earnings potential of the companies in the near-term.

## VERTICALS AUTO COMPONENT:

Auto component constitutes 45% of total sales in last year. Low fuel prices, following international conditions and a reduced excise duty on passenger vehicles for a large part of the year helped demand in Indian Markets. The domestic passenger vehicle industry grew 3.9% by volume during the year against a drop of 6.1% in 2013-14. In passenger vehicles, five of the top 10 OEMs have registered a decline. The Medium and Heavy Commercial Vehicle (MHCV) segment has shown growth after almost two years. However, volumes are still 33.4% below the peak year volumes of 2012-13.

As per latest study, the automotive sector is expected to generate up to \$300 billion in annual revenue by 2026, contributing over 12% to India's GDP. Industry is expected to be 4 times in next 10 years.

Currently, nine of the top ten global automotive manufacturers have a presence in India, which clearly points to India's importance as a strategic automotive market. After more than a decade of establishing a manufacturing base in India, MNC OEMs have garnered 84.9% share of the domestic Passenger Vehicles (PV) market and are also increasingly using India as an export base.

## PERFORMANCE OF INDIAN AUTOMOBILE INDUSTRY

# MANAGEMENT DISCUSSION AND ANALYSIS

Car sales in the United States, the world's biggest market, are robust so far in 2015. Total vehicle sales in the US will cross 20 million units this year for the first time in recorded history as rising incomes and lower gasoline costs fuel car purchases.

The Auto ancillary demand in the US is estimated at 1.2 million tons per annum. Since the installed capacity is far lower, imports are rising.

**TOWERS:** Power & Transmission: FY16 budget estimated a spending of Rs 1.25 lakh crore on the Transmission and Distribution sector within the power industry. Most problems in the generation of power have been solved or are being worked upon. Coal linkages have been announced. Production

of coal has risen and electricity consumption is on the rise. However, the problems in evacuating power from source to customers remain.

As a consequence, over the next two years the Union / State Governments are expected to focus their attention and investments in the transmission and distribution areas within the power sector.

Good Luck is gearing up to meet such demand. Your company has invested Rs 30 crore in its Structures Division to boost capacity two-fold to 36,000 tons by March 2016. We see strong demand for our transmission tower business coming in from established industrial houses and government companies.

**OIL & GAS :** Globally around 7.7 mmb/d of refinery capacity is expected to be added in the next seven years. While Asia will see a majority of fresh capacity additions (49%), followed by the Middle East (25%), the region is expected to be balanced in terms of capacity growth and demand.

**INFRASTRUCTURE :** PM outlined his vision to building 100 new cities, creating Satellite cities around large cities, network of Bullet Trains, river interlinking and speed up capital spending on roads.

**SOLAR :** Your company is also tapping to this sunrise areas. Goodluck is a provider of structural solutions to the Solar Power Sector. Your company can design, engineer, fabricate and erect solar panels. Goodluck can design the plant as per STAD calculation and also execute the same in EPC mode. Goodluck can fabricate two types of

**STRUCTURES:** Traditional or Profile. In FY 2015, your company supplied products to two major solar projects and is already working with big conglomerates, like, Tata Projects.

Major business houses are also ramping up their investments in the Solar Power Sector. New plants are being set up across India, which is blessed with nearly 12 hours of sunlight in an absolute majority of the country's geography.

As a result, we expect to add Rs 50 crore to the overall turnover from our solar division from FY 2017 onwards. Goodluck is targeting to increase this vertical upto 25-30% by FY2018. The same will improve the margin profile of the your company.

**RAILWAY :** Indian Railway is emerging to be a big market for private sector companies. The government intends to spend about Rs 8,000 million over the next five years to augment railway infrastructure and improve safety standards for passengers.

Your company can fabricate critical components of bogie under parts, front body

parts of locomotives, doors of passenger trains, under frames etc. Besides above, we wish to develop machine / stainless steel parts also.

During the year, Goodluck getting approved by RDSO for large scale fabrication of over bridges and cross over bridges. Goodluck products were also approved by Chittaranjan Locomotive Works (CLW) for manufacturing in its forging unit the Armature Shaft and Rotar shafts of HTM for Electrical Locomotives. Goodluck expects strong demand for its structural business from the railways sector, especially in the segment of over bridges.

**OTHER SECTORS :** India is also ramping up electricity production from Nuclear fuels. New projects are in the implementation stage and the government has signed agreements on supply of nuclear fuels with Canada and Australia recently. India is emerging as the biggest market for nuclear components for global suppliers as expansions at nuclear plants in Japan and Germany draw public ire. Goodluck is approved by The Nuclear Power Corporation of India to supply parts to main manufacturers. While sales from such businesses is miniscule now, it will definitely ramp up in the near future. Presently, about 17 percent of Goodluck's turnover comes from the Power Sector, which we expect to increase to 20 percent in the coming years. Your company is treating Auto, Defence, Railways and Solar industries as its Sunrise sectors.

# MANAGEMENT DISCUSSION AND ANALYSIS

## FINANCIALS & PROFITABILITY :

Last year has been a noteworthy year for Goodluck. Your company's emphasis on major initiatives like focus on changing the product mix, concentrating on asset light model, capacity expansion and reducing debt without losing sight of health, safety and environment. As a result, our total revenue grew-up by 9% with increase in PAT by 39% (net profit after tax of Rs 27.54 crore). During the year, we have added around 10% customer to focus sectors.

**EXPANSION OUTLOOK :** The Company has undertaken drive for capacity expansion in last couple of years. New manufacturing lines are added across the locations, new equipment's based on latest technology is being commissioned and plant layouts are reworked to achieve optimum utilizations of the installed capacities. Technology Upgradation have emerged as the most important attributes in enhancing competitiveness.

In November, 2014, Goodluck inaugurated its Rs 96 crore, 30,000 MTPA manufacturing plant at Sikandarabad in Uttar Pradesh, which will completely utilized its optimum capacity by FY 2016 and will add up to top line by Rs 200 crore and bottom line suitably.

## INVESTING IN R&D AND INNOVATION

Goodluck has always stressed on the importance of R&D for future growth. The Company is preparing to keep itself

ahead of the curve with respect to the new technologies that are coming up and at the same time develop new products and processes for the customers in both the auto and the industrial space.

**HUMAN RESOURCE :** Our employees have been our driving force and we have ridden high on their commitment and dedication.

Managing the health and safety of the people who work for us, both directly and indirectly, continued to be our top priority last year also. Although our overall safety performance was good, the focus, at most of our sites, was to enhance safety culture, contractor safety management, risk assessment and training.

**ENVIRONMENT :** Your company is committed to minimising pollution, reducing its environmental footprint and optimising resource consumption by planning and carrying out operations through environmentally responsible processes and practices. We continually assess environmental risks in our operations through risk and impact assessments and audits. All of our operations have environmental management plans which are specific to each site.

**SUSTAINABILITY :** Goodluck believes that to create a successful long-term business, focus on sustainability is vital.

One of the key elements of the Company's strategy is, therefore, a strong commitment to be a good corporate citizen. As such, sustainability is a boardroom priority and issues are reviewed and discussed on a regular basis by the Safety and Sustainability Committee. This committee has been established to ensure that the welfare of our people and their communities sit at the very heart of our business.

During the year, there was a strong focus on education, health, community care, employee retention, and nurturing and growing internal talent.

Zero occupational disease rate was achieved at all site

Nearly 3000 beneficiaries of healthcare initiatives undertaken at various sites; a threefold increase from last year

Over 5000 beneficiaries of community care initiatives undertaken at various sites

We have financially contributed to a Ghaziabad based Vardaan Eye Care Hospital for assisting it in constructing an additional floor. The hospital takes care of general public at a nominal token price.

Company workers along with the management, planted 1000 trees near to the proximity to our plant in Sikandarabad as a SHRAMDAN seva.

Your company has contributed to construct the cremation facility for the

nearby villagers to the proximity to our plant in Sikandarabad.

Your company is taking care of animals by contributing for feed of 10000 cows in Gaushtala in Ghaziabad.

Your company is further involved in a lot of social activities through Rotary club and other social intuitions.

In the coming years, we plan to take educational initiatives undertaken at various sites to benefit at least 4000 girl children.

## OPPORTUNITIES AND THREAT : THREATS / RISKS :

**Raw Material Costs:** Our main raw material, HR Coils are sold on an import parity basis. Any sudden spike in costs has two impacts. One is that it hits our sales growth, as there is a resistance in the market to accept big price hikes. Secondly, it also impacts our margins, as the market participants find it difficult to push through the entire price hike immediately.

## RIISING TRANSPORTATION

**COSTS :** In India there has been rapid price inflation over the last five years. Any change in Government policy related to Diesel price may impact us marginally

## MANAGEMENT DISCUSSION AND ANALYSIS

**STATE LEVEL TAXES :** India has both centralised taxes and state level taxes like Entry taxes, Octroi duties etc. Any sudden jump in this can make our goods expensive and uncompetitive in that market in case we do not have a manufacturing plant in that state.

**MANPOWER :** Due to increasing competition and the presence of global players, the ability to attract and retain managerial talent and the availability of skilled and unskilled manpower is becoming a key issue. Improving the quality of manpower is also an issue for the industry.

**COST OF FUNDS :** Availability of finance at reasonable interest costs has become difficult due to a tighter monetary policy which has led to subdued industrial activity. The weak overall monsoon as predicted can prove a deterrent for economic growth. A resultant strong inflation may lower consumption demand and reduce infrastructure investment thus adversely affecting demand.

**OPPORTUNITIES :** Your Company has been able to grow and thrive in the industry because of its capabilities and its constant pursuit of diversifying its business across customers, sectors, geographies and products. Your Company is currently developing a new niche portfolio of components which will cater commercial vehicles. This will support our plan for sustained growth in medium to long term.

In terms of industry trends, there is components/sub-assemblies as well as a growing demand for precision forging components (near net shape forging) mainly due to cost reduction along the production chain.

The Indian automobile market has gained a lot of focus from the past couple of years from many global players who have started

utilizing India as a manufacturing base because of its low cost manufacturing and hence many OEMs are setting up opportunities for auto component makers to cater to the domestic and export markets.

The 'Make in India' initiative of the government coupled with the interest rate reduction cycle is expected to bring an economic revival and increase spending on infrastructure and related sectors. This will provide a huge opportunity for the industrial products. The Government's Make in India initiative is aimed at reviving the manufacturing sector and increasing its percentage of GDP from 15% to 25%. The infrastructure related sectors, such as, power, mining, railways are the key beneficiaries who are our important & potential customers.

**INTERNAL CONTROL, SYSTEMS & RISK MANAGEMENT :** Goodluck has a proper and adequate internal control system in place to safeguard assets and protect against loss from any unauthorised use or disposition. ### ANNUAL REPORT ON CORPORATE SOCIAL RESPONSIBILITY (CSR) ACTIVITIES FOR THE FINANCIAL YEAR 2014-15

1. A brief outline of the Company's CSR Policy including overview of projects or programs proposed to be undertaken and a reference to the web-link to the CSR Policy and projects or programs :

The policy encompasses the company's philosophy for delineating its responsibility as a corporate citizen and lays down the guidelines and mechanism for undertaking socially useful programmes for welfare & sustainable development of the community at large, is titled as the 'CSR Policy-2015'. This Policy shall be read in line with Section 135 of the Companies Act 2013, Companies (Corporate Social Responsibility Policy) Rules, 2014 and such other rules, regulations, circulars,

and notifications (collectively referred hereinafter as 'Regulations') as may be applicable and as amended from time to time. The CSR policy – 2015 of GLST will supersede all the earlier policies relating to CSR. The main objective of GLST CSR policy is to lay down guidelines for the company to make CSR a key business process for sustainable development for the society. GLST will act as a good Corporate Citizen, subscribing to the principles of global compact for implementation. The detailed CSR Policy may be accessed on the Company's website at the weblink: <https://www.goodlucksteel.com>.

2. The Composition of the CSR Committee:

SL. No.	NAME OF DIRECTOR	CATEGORY	
1.	Mr. Vijender Kr. Tyagi	Non Executive Independent Director	Chairman
2.	Mr. Nitin Garg	Whole Time Director	Member
3.	Mr. R. C. Garg	Whole Time Director	Member

3. Average net profit of the Company for last three financial years: Rs. 2204.04 Lacs

4. Prescribed CSR Expenditure (two percent of the amount mentioned in item 3 above) : Rs. 44.08 Lacs

5. Details of CSR spent during the financial year:

- i) Total amount to be spent for the financial year: N.A.
- ii) Amount unspent, if any: N.A.
- iii) Manner in which the amount spent during the financial year: N.A.

2.	N.A.	N.A.	N.A.	N.A.	N.A.	N.A.	N.A.

6. In case the Company has failed to spend the two percent of the average net profit of the last three financial years or any part thereof, the company shall provide the reasons for not spending the amount in its Board report :  
The Concept of Corporate Social Responsibility (CSR) has gained prominence from all avenues. Organizations have realized that government alone would not be able to get success in its endeavor to uplift the downtrodden society. Even much before the issue of CSR became global concern, Good Luck Steel Tubes Limited (GLST) was aware of its responsibility towards the society. In alignment with vision of the company, GLST, through its CSR initiatives, continues to enhance value creation in the society and in the community in

which it operates, through its services, conduct & initiatives, so as to promote sustained growth for the society and community, in fulfillment of its role as a Socially Responsible Corporate, with environmental concern. Now, GLST has spent the amount for the welfare of the society and under-privileged section of the society however, unfortunately it does not fall within ambit of the scope of section 135 of the Act and Companies (Corporate Social Responsibility Policy) Rules, 2014. However the company ensures to spend the expenditure of the said amount in F Y 2015-16 as per scope of same.

7. The CSR Committee confirms that the implementation and monitoring of CSR Policy is in compliance with CSR objectives and Policy of the Company.

## INDEPENDENT AUDITOR'S REPORT

### TO THE MEMBERS OF GOOD LUCK STEEL TUBES LTD

Report on the Standalone Financial Statements

We have audited the accompanying standalone financial statements of Good Luck Steel Tubes Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2015, the Statement of Profit and Loss and Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation and presentation of these standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true

and fair view and are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express an opinion on these standalone financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made there under.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on whether the Company has in place and adequate internal financial controls system over financial reporting and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on

the standalone financial statements.

#### Opinion

In our opinion and to the best of our information and according to the explanations given to us, the standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2015 and its profit and its cash flows for the year ended on that date.

Report on Other Legal and Regulatory Requirements

**1.** As required by the Companies (Auditor's Report) Order, 2015 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the Annexure a statement on the matters specified in paragraphs 3 and 4 of the Order.

**2.** As required by section 143(3) of the Act, we report that:

**a.** We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit.

**b.** In our opinion, proper books of account as required by law, have been kept by the Company so far as it appears from our examination of those books.

**c.** The Balance Sheet, Statement of Profit and Loss, and Cash Flow Statement dealt with by this Report are in agreement with the books of account.

**d.** In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under section 133 of the Act read with Rule 7 of the Companies (Accounts) Rules, 2014.

**e.** On the basis of written representations received from the directors as on March 31, 2015, taken on record by the Board of Directors, none of the directors is

disqualified as on 31st March, 2015, from being appointed as a director in terms of Section 164 (2) of the Act.

**f.** With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us :

**(i)** The Company has disclosed the impact of pending litigations on its financial position in its financial statements as of March 31, 2015;

**(ii)** The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts;

### A. BASIS OF PREPARATION OF FINANCIAL STATEMENTS

The Company follows the mercantile system of accounting and recognizes income and expenses on accrual basis. The accounts are prepared on historical cost basis as a going concern. Accounting policies not referred to otherwise are consistent with generally accepted accounting principles and the provisions of the Companies Act, 2013. The financial statements comply with the requirements of the accounting standards notified under section 133 of the Companies Act, 2013 read with Rule 7 of Companies (Accounts) Rules, 2014.

### B. USE OF ESTIMATES

The preparation of financial statements requires estimates and assumptions to be made that affect the reported amounts of assets, liabilities and disclosure of contingent liabilities on the date of financial statements and the reported amounts of revenues and expenses during the reporting period. Difference between the actual results and estimates are recognized in the period in which the results are known / materialized.

### C. FIXED ASSETS

The fixed assets viz. Land, Building, Plant & Machinery of Sikandrabad unit were revalued at fair market value as at 31st. March, 1994 as assessed by the valuers appointed for the purpose. As a result,

book value of such assets was increased by ₹242.29 Lacs which was credited to Capital Reserve. The remaining fixed Assets are stated at cost, net of modvat/cenvat/vat, less accumulated depreciation inclusive of freight, duties, taxes and incidental expenses. All cost, including financing cost till commencement of commercial production, net of charges on foreign exchange contracts and adjustments arising from exchange rate variations attributable to the fixed assets are capitalized.

### D. DEPRECIATION AND AMORTISATION

Depreciation has been provided based on life assigned to each asset in accordance with Schedule II of the Companies Act, 2013.

### E. INVENTORY

Inventories are valued at lower of cost or net realizable value except by-products and scrap which is valued at net realizable value. The cost is determined by using first-in-first-out (FIFO) method. Finished goods and semi-finished goods include costs of conversion and other costs incurred in bringing the inventories to their present location and condition. Cost of raw materials, stores & spares, packing materials, trading and other products are valued at cost.

### F. REVENUE RECOGNITION

Revenue from operations include sale of goods, services, excise duty and sales during trial run period, adjusted for discounts (net), Value Added Tax (VAT)

# STANDALONE FINANCIAL STATEMENT

and Service Tax.

Interest income is recognized on a time proportion basis taking into account the amount outstanding and the applicable interest rate. Interest income is included under the head "Other Income" in the statement of Profit and Loss account.

## G. EMPLOYEES' BENEFITS

Retirement benefits, such as gratuity are accounted for on the basis of provisions as lay down under accounting standard (AS-15) "Provision for Retirement Benefits" for employees are as per the certificate provided by the management. Contributions to Provident Fund, a defined contribution plan are made in accordance with the statute, and are recognized as an expense when employees have rendered service entitling them to the contribution.

Company's contribution to state defined contribution plan namely, Employee State Insurance are made in accordance with the statute, and are recognized as an expenses when employees have rendered services entitling them to the contribution.

## H. BORROWING COSTS

Borrowing costs that are attributable to the acquisition or construction of qualifying assets are capitalized as part of the cost of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use. All other borrowing costs are charged to Profit and Loss account.

## I. FOREIGN CURRENCY TRANSACTIONS

Transactions denominated in foreign currencies are normally recorded at the exchange rate prevailing at the time of the transaction. Monetary items denominated in foreign currencies

outstanding at the year end are translated at exchange rate applicable at year end rates. In respect of monetary items which are covered by forward exchange contracts, the difference between the realizable rates at the year end and the rate on the date of contract is recognized as exchange difference. Any income or expenses on account of exchange difference either on settlement or on translation is recognized in the Profit and Loss Account except in cases of long term liabilities, where they relate to acquisition of fixed assets, in which case they are adjusted to the carrying cost of such assets.

## J. DERIVATIVE FINANCIAL INSTRUMENTS

The Company uses derivative financial instruments such as forwards, swaps etc. to hedge its risks associated with foreign exchange fluctuations. The use of financial derivative instruments is governed by company's policies which provide for the use of such financial derivative consistent with the company's risk management strategy and not for speculative purposes.

Derivative financial instruments entered into for hedging foreign exchange risks of recognised foreign currency monetary items are accounted for as per the principles laid down in Accounting Standard-11 "The effects of changes in foreign rates".

If no hedging relationship is designated, the fair value of the derivative financial instruments is marked to market through the Statement of Profit and Loss.

## K. INVESTMENTS

Long-term investments are carried at cost less provision for diminution other than temporary, if any, in value of such investments.

## L. CENVAT / VAT

Cenvat / Vat claimed on capital goods are credited to fixed assets / capital work-in-progress account. Cenvat / Vat on purchase of raw materials and other materials are deducted from the cost of such materials.

## M. LITIGATION

The Company is subject to legal proceedings and claims which have arisen in the ordinary course of business. The Company's management does not reasonably expect that these legal actions when ultimately concluded and determined will have a material and adverse affect on the Company's result of operations or financial condition.

## N. PROVISION FOR TAXATION

Provision for current tax is made after taking into consideration benefits admissible under the provision of Income Tax Act, 1961.

In accordance with the Accounting Standard (AS) - 22 "Accounting for taxes on income", issued by The Institute of Chartered Accountants of India, the Deferred Tax Liability for timing differences between the book and tax profits is accounted for using the tax rates and tax laws that have been enacted or substantially enacted as of the Balance Sheet date.

## L. PROVISIONS, CONTINGENT LIABILITIES AND ASSETS

Provisions are recognized only when there is a present obligation as a result of past events and when a reliable estimate of the amount of the obligation can be made. Contingent liability is disclosed for (i) Possible obligation which will be confirmed only by future events not wholly within the control of the Company or (ii) Present obligation arising from past events where it is not probable that an outflow of resources will be required to

settle the obligation or a reliable estimate of the amount of the obligation cannot be made. Contingent Assets are not recognized or disclosed in the financial statements.

# CONSOLIDATED FINANCIAL STATEMENT

## INDEPENDENT AUDITOR'S REPORT

### TO THE MEMBERS OF GOOD LUCK STEEL TUBES LTD

Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of Good Luck Steel Tubes Limited and its subsidiary ("the Company"), which comprise the Balance Sheet as at March 31, 2015, the Statement of Profit and Loss and Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Consolidated Financial Statements

The Company's Board of Directors is responsible for the matters stated in the Companies Act, 2013 ("the Act") with respect to the preparation and presentation of these consolidated financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material

misstatement, whether due to fraud or error, which have been used for the purpose of preparation of these consolidated financial statements by the Board of Directors of the Company.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made there under.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on whether the Company has in place and adequate internal financial controls system over financial reporting and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

# CONSOLIDATED FINANCIAL STATEMENT

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

## Opinion

In our opinion and to the best of our information and according to the explanations given to us, the consolidated financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2015 and its profit and its cash flows for the year ended on that date.

## Report on Other Legal and Regulatory Requirements

**1.** As required by the Companies (Auditor's Report) Order, 2015 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the Annexure a statement on the matters specified in paragraphs 3 and 4 of the Order.

**2.** As required by section 143(3) of the Act, we report that:

**a.** We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit.

**b.** In our opinion, proper books of account as required by law, have been kept by the Company so far as it appears from our examination of those books.

**c.** The Balance Sheet, Statement of Profit and Loss, and Cash Flow Statement dealt with by this Report are in agreement with the books of account.

**d.** In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under section 133 of the Act read with Rule 7 of the Companies (Accounts) Rules, 2014.

**e.** On the basis of written representations received from the directors as on March 31, 2015, taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2015, from being appointed as a director in terms of Section 164 (2) of the Act.

**f.** With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

**(i)** The Company has disclosed the impact of pending litigations on its financial position in its financial statements as of March 31, 2015;

**(ii)** The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts;

**(iii)** There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company and its subsidiary company incorporated in India.

## Notes on Consolidated Financial Statement

### SIGNIFICANT ACCOUNTING POLICIES

#### COMPANY OVERVIEW

**Good Luck Steel Tubes Limited is engaged in the manufacturing of Black & G.I. Pipe, C.R. Sheet / Coil, G.P.G.C. Sheet / Coil, C.R.C.A. Sheet / Coil, Structures, Poles, Stainless / Mild / Alloy steel forgings & flanges, Bright Bars, ERW Tube & CDW Tubes and steel products, etc.**

#### A. BASIS OF PREPARATION OF FINANCIAL STATEMENTS

The Company follows the mercantile system of accounting and recognizes income and expenses on accrual basis. The accounts are prepared on historical cost basis as a going concern. Accounting policies not referred to otherwise are consistent with generally accepted accounting principles and the provisions of the Companies Act, 2013. The financial statements comply with the requirements of the accounting standards notified under section 133 of the Companies Act, 2013 read with Rule 7 of Companies (Accounts) Rules, 2014.

#### B. USE OF ESTIMATES

The preparation of financial statements requires estimates and assumptions to be made that affect the reported amounts of assets, liabilities and disclosure of contingent liabilities on the date of financial statements and the reported amounts of revenues and expenses during the reporting period. Difference between the actual results and estimates are recognized in the period in which the results are known / materialized.

#### C. FIXED ASSETS

The fixed assets viz. Land, Building, Plant & Machinery of Sikandrabad unit were revalued at fair market value as at 31st. March, 1994 as assessed by the valuers appointed for the purpose. As a result, book value of such assets was increased by ₹242.29 Lacs which was credited to

Capital Reserve. The remaining fixed Assets are stated at cost, net of modvat/cenvat/vat, less accumulated depreciation inclusive of freight, duties, taxes and incidental expenses. All cost, including financing cost till commencement of commercial production, net of charges on foreign exchange contracts and adjustments arising from exchange rate variations attributable to the fixed assets are capitalized.

#### D. DEPRECIATION AND AMORTISATION

Depreciation has been provided based on life assigned to each asset in accordance with Schedule II of the Companies Act, 2013.

#### E. INVENTORY

Inventories are valued at lower of cost or net realizable value except by-products and scrap which is valued at net realizable value. The cost is determined by using first-in-first-out (FIFO) method. Finished goods and semi-finished goods include costs of conversion and other costs incurred in bringing the inventories to their present location and condition. Cost of raw materials, stores & spares, packing materials, trading and other products are valued at cost.

#### F. REVENUE RECOGNITION

Revenue is recognized to the extent that is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

Revenue from operations include sale of goods, services, excise duty and sales during trial run period, adjusted for discounts (net), Value Added Tax (VAT) and Service Tax.

Interest income is recognized on a time proportion basis taking into account the amount outstanding and the applicable interest rate. Interest income is included under the head "Other Income" in the statement of Profit and Loss account.

#### G. EMPLOYEES' BENEFITS

Retirement benefits, such as gratuity are accounted for on the basis of provisions as lay down under accounting standard (AS-15) "Provision for Retirement Benefits" for employees are as per the certificate provided by the management. Contributions to Provident Fund, a defined contribution plan are made in accordance with the statute, and are recognized as an expense when employees have rendered service entitling them to the contribution.

Company's contribution to state defined contribution plan namely, Employee State Insurance are made in accordance with the statute, and are recognized as an expenses when employees have rendered services entitling them to the contribution.

#### H. BORROWING COSTS

Borrowing costs that are attributable to the acquisition or construction of qualifying assets are capitalized as part of the cost of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use. All other borrowing costs are charged to Profit and Loss account.

#### I. FOREIGN CURRENCY TRANSACTIONS

Transactions denominated in foreign currencies are normally recorded at the exchange rate prevailing at the time of the transaction. Monetary items denominated in foreign currencies outstanding at the year end are translated at exchange rate applicable at year end rates. In respect of monetary items which are covered by forward exchange contracts, the difference between the realizable rates at the year end and the rate on the date of contract is recognized as exchange difference. Any income or expenses on account of exchange difference either on settlement or on translation is recognized in the Profit and Loss Account except in cases of long term liabilities, where they relate to acquisition of fixed assets, in which case they are adjusted to the carrying cost of such assets.

#### J. Derivative Financial Instruments

The Company uses derivative financial instruments such as forwards, swaps etc. to hedge its risks associated with foreign exchange fluctuations. The use of financial derivative instruments is governed by company's policies which provide for the use of such financial derivative consistent with the company's risk management strategy and not for speculative purposes.

Derivative financial instruments entered into for hedging foreign exchange risks of recognised foreign currency monetary items are accounted for as per the principles laid down in Accounting Standard-11 "The effects of changes in foreign rates".

If no hedging relationship is designated, the fair value of the derivative financial instruments is marked to market through the Statement of Profit and Loss.

# CONSOLIDATED FINANCIAL STATEMENT

## K. INVESTMENTS

Long-term investments are carried at cost less provision for diminution other than temporary, if any, in value of such investments.

## L. CENVAT / VAT

Cenvat / Vat claimed on capital goods are credited to fixed assets / capital work-in-progress account. Cenvat / Vat on purchase of raw materials and other materials are deducted from the cost of such materials.

## M. LITIGATION

The Company is subject to legal proceedings and claims which have arisen in the ordinary course of business. The Company's management does not reasonably expect that these legal actions when ultimately concluded and determined will have a material and adverse affect on the Company's result of operations or financial condition.

## N. PROVISION FOR TAXATION

Provision for current tax is made after taking into consideration benefits admissible under the provision of Income Tax Act, 1961.

In accordance with the Accounting Standard (AS) - 22 "Accounting for taxes on income", issued by The Institute of Chartered Accountants of India, the Deferred Tax Liability for timing differences between the book and tax profits is accounted for using the tax rates and tax laws that have been enacted or substantially enacted as of the Balance Sheet date.

## L. PROVISIONS, CONTINGENT LIABILITIES AND ASSETS

Provisions are recognized only when there is a present obligation as a result of past events and when a reliable estimate

of the amount of the obligation can be made. Contingent liability is disclosed for (i) Possible obligation which will be confirmed only by future events not wholly within the control of the Company or (ii) Present obligation arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made. Contingent Assets are not recognized or disclosed in the financial statements.
